October 2015

To Whom It May Concern:

The West Iron County Public Schools would strongly recommend FA Industrial Services. This past summer we had a demolition/renovation project of a 60 year old bathroom that was handled by FA Industrial Services and the outcome was fantastic. The quality of the work, the lines of communication, and adherence and understanding of timelines are what any consumer would hope for.

In the future, if the district has any new projects, there would be no hesitation in hiring FA Industrial Services again.

Sincerely,

Mr. Christopher Thomson, Superintendent  
West Iron County Public Schools
